

Brian Kaye, CBCP

Brian Kaye is Control Risks' Vice President for Business Management with the Crisis & Resilience Consulting team in the Americas region. He is responsible for developing, implementing and managing world-class continuity solutions for Control Risks' client base, with a focus on the strategic needs of the business. His areas of expertise include holistic preparedness program design and implementation, benchmarking, evaluation of program governance provisions, and the realization of competitive advantage through enhanced resilience. Brian is a regular contributor to conferences, workshops and events across the US, as well as leading media publications such as *BBC World Financial News*, *The Financial Times*, *Disaster Recovery Journal* and *Security & Technology Executive*. Prior to joining Control Risks, Brian served as an Intelligence Analyst with the Central Intelligence Agency (CIA), including an appointment as Executive Assistant to the Director and Deputy Director for Analysis in the CIA's DCI Counterterrorist Center. In August 2003, Brian was awarded the CIA's Exceptional Accomplishment Award for his work in support of Operation Iraqi Freedom. Brian is a graduate of the Career Analyst Program at the CIA's Sherman Kent School for Intelligence Analysis. Brian holds a Master of Arts degree in International Affairs from The Johns Hopkins University's School for Advanced International Studies (SAIS). Brian also holds a Master of Business Administration degree with a Certificate of Specialization in Information Technology from Shenandoah University. He holds a Bachelor of Arts degree in Political Science from the University of Richmond. In 2007, he completed the ISMA-sponsored Security Manager Certificate Program at Georgetown University's School of Business. Brian holds the gold-standard Certified Business Continuity Professional (CBCP) credential, awarded by the Disaster Recovery Institute.
