

Bob Reilly

A Senior Associate with Booz Allen Hamilton, has over twenty-five years experience in Security Management.

He currently directs a team of consultants, performing Business Continuity Planning (BCP), Information Technology Disaster Recovery (ITDR), and Continuity of Operations (COOP) for Federal Agencies.

Prior to joining Booz Allen Hamilton, Bob served as Intelligence and Security Officer for the US Army. During his career Mr. Reilly's roles have included leading reconnaissance, surveillance and security activities, Information Assurance, and Security Policy development and advisement for Senior Executives in the United States Government.

He holds an undergraduate degree in Marketing/Management from Siena College, and graduate degrees in Information System Management from Webster University and in National Security Studies from the US Naval War College. He is a CISSP-ISSMP (Certified Information System Security Professional and Information System Security Management Professional) and a trained ISO 27001 Lead Auditor.
